

Fun with fruits & vegetables – A practical experience

On Monday the 28th of October 2019 the class Erz 19.2 visited the primary school “Bornstedter Feld II” in Potsdam.

Our task was it to playfully teach a foreign language to young learners. We did this activity to improve our practical experience in the daily routine and to practise our communication skills in general.

Because our topic was fun with fruits and vegetables we formed small groups of two to four students. Each group developed their own idea for the performance. In the English lessons before we had several instructions how to plan our activity. We made animals out of fruits, different vegetables slices with dips and a watermelon pizza. At first we welcomes the children and explained in English and German what we will do so the children could understand all and could follow our instructions. We were cutting fruits and vegetables together and decorated everything before we served it. After that we ate the healthy and delicious fruits and vegetables.

Overall it was a very interesting activity and we got a lot of experience in the practical work with children.

A fun healthy snack project

On the 4th of November 2019 the future nursery teacher (ERZ 19.1) of our school went to the primary school "Bornstedter Feld II" and was able to do a project about healthy snacks. The children were in grade 1-4 and had an English Monday where they had the opportunity to learn and practise English.

The project was a great experience for the students to teach some English words / healthy food / to plan and perform a project. The students worked in small groups with the children, each child had one student on its side.

It was a great day and it was fun to create healthy snacks together. Also to teach some English words in funny and simple ways, for example a memory hook for cheese was to pretend to take a picture and to say cheese.

All in all it was a great experience for the students and a nice project for the children. Everything went well and it is worth to repeat.
